EXPERIENCE

PHONEPE

10/2021 - Present

Product Solution Engineer

Pune, India

- Writing APIs for Merchant reconciliations.
- Worked on merchant adjustments/refunds APIs and automated the process.
- Writing Billpay/Billfetch related alert for better on-call monitoring.
- Developed an utility that helps other systems identify which DC the call needs to go to, which helped us resolve 5% transactions without manual intervention.

BITWISE

6/2017 - 10/2021

Programmer Analyst

Pune, India

- Built APIs that serve data to frontend Thymeleaf templates.
- Worked on data pipelines to migrate backend data from DB2 to Oracle DB.
- Analysed backend SQL queries and optimised the performance to improve the page load by 20%.
